Global Institute of Technology JAIPUR

Major analysis of Alumni feedback

Strong Points-

- **Overall Teaching-Learning Atmosphere**

Global Institute of Engineering& Technology has created a highly positive teaching-learning environment, indicated by 77.78% of respondents rating it excellent and 22.22% very good. The supportive faculty, modern facilities, and an engaging academic culture foster effective student learning and growth.

- **Use of ICT-Enabled Teaching Tools**

The college integrates ICT tools such as projectors and audio-video systems in classrooms, enhancing the delivery and understanding of complex concepts. More than half the students (57.18%) rate this use of technology as excellent, demonstrating the emphasis on modern teaching aids.

- **Placement Opportunities**

Placement support is a key strength of the college with 68.45% of feedback rating placements as excellent and 21.56% very good. The active placement cell maintains strong industry connections, facilitating internships and job placements with reputed companies.

- **Progressively Structured Curriculum**

The curriculum is designed to progressively guide students from basic to advanced levels, which 87.96% rated very good. This structured approach helps students build strong foundational knowledge before moving to complex subjects, aligning well with industry needs.

- **Extracurricular/Co-curricular Activities**

The college encourages holistic development through varied extracurricular and co-curricular activities, with 74.37% marking them very good. These activities provide students opportunities for self-expression, social interaction, and personality development beyond academics.

Areas to Focus On-

- **Enhance Employability and Overall Development**

The college should strengthen initiatives to improve employability by incorporating industry-relevant certifications, practical internships, and soft skills training. By focusing on real-world experience and communication skills, students will be better prepared for competitive job markets and holistic growth.

- **Increase Professional Training like Soft Skills Classes**

Expanding soft skills training programs is crucial as these skills are highly valued by employers. The college can organize workshops on communication, teamwork, interview preparation, and leadership to boost student confidence and workplace readiness.

- **Explore Innovative Teaching-Learning Methodologies**

There is a need to diversify teaching methods beyond traditional lectures by integrating interactive, student-cantered approaches such as project-based learning, flipped classrooms, and technology-enhanced instruction. This will foster deeper understanding and engagement among students.

- **Improve Support and Facilities for Startups and Research**

Slight improvements in resources and mentoring for startups and research activities can significantly boost innovation culture in the college. Enhanced infrastructure, funding opportunities, and expert guidance will encourage students to undertake entrepreneurial and research projects effectively.
