PROPOSAL OF HACKATHON:

The **GIH CODEFIESTA 3.0** Hackathon is back again to spark creativity and redefine the possibilities of innovation with bigger prizes, exciting activities, and more fun.

The GIH CODEFIESTA 3.0 Hackathon, is a 24-hour long Hackathon that gives you an opportunity to build something unique to solve problems from various spheres of modern human life. Use this hackathon to launch your big idea and potentially get continuity grants to turn your idea into a real-world product! Whether you are a budding innovator, an aspiring engineer, or simply passionate about technology, CODEFIESTA 3.0 Hackathon welcomes you to join us to reimagine the possibilities with WEB 3.0, IoT, AI & ML, and FinTech, Cyber Security etc.

VISION:

1. **Promote creativity and team working** - Hackathon provides a platform for students to unleash their creativity and collaboration skills, two vital skills for future learning and career development, through coming up with ideas and building the product collaboratively.
2. **Educate students with developmental skills-** Programming is the new literacy. Every industry, from finance to transportation, requires people who know how to program. By equipping students with development skills, more opportunities will open up for them in the future.
3. **Promote “Developing Culture”** - Developing culture encourages people to think out of the box. Students challenge themselves to create something new and

to take ownership of what they create. These are important but often neglected experiences.
